## DETAILED ACTION

### *Claim Rejections - 35 USC § 103*

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hoegh in view of Wrethander. Hoegh discloses the use of an armchair (10) with a seat lift but fails to show the use of a wheel means on the armchair. Wrethander shows the old and well know use in the art of a lift chair (21) having a wheel means (2,3) of the wheel chair type, which includes one fixed (3) and one swivel (2) wheel means. It would have been obvious to one of ordinary skill in the art at the time of the invention to modify the lift chair of Hoegh with a wheel means, as taught by Wrethander in order to allow for mobile transport of an occupant while in the chair.

### *Conclusion*
